

GOLDEN EAGLE TRAINING & SAFETY

APRIL 2014 Newsletter

We hope this month's newsletter finds everyone staying safe and in good health. Spring time is just around the corner. Not only does the change in warmer and longer days bring out the good folks but is also brings out the bad and ugly ones. Remember to carry concealed and don't become a victim.

We completed our second Carrying Concealed Handgun class for the year last month. Twenty-two reputable people completed the basic class on March 22nd in Homer at DWCC. Another good class at an excellent training facility. It was our last class at \$52 as we have increase our tuition ten dollars to \$62. Gas, ammo, and supplies going up. We didn't want to raise it but had to. Good looking class photo below. Butch & I feel good about more and more folks wanting to carry concealed. Nothing like being prepared.

March 22nd, 2014 CCH Class

We would like to hold another Advanced Carrying Concealed Weapon Class so let us hear from those that are interested in this course. The course fits the state's requirements for allowing those permitted to carry concealed in church and also for those businesses and agencies that may require further training than the basic CCH course. Advanced CCW goes into more detail on the Fundamentals of Shooting and Combat Point Shooting and covers the following; Shooting from cover and concealment, Shoot / Don't Shoot; Decision Making Shooting; Shooting multiple targets; Loading & Reloading; Covering a subject; Scanning; Shooting with Time, Distance, and Cover. Firearms safety is also discussed and adhered to. If you went through a basic CCH, one can go through the Advanced CCW course. Only

requirements are that you have 300 rounds of ammunition for your carrying concealed handgun, currently hold a CCH permit or had attended one of our CCH classes, (do not have to have permit). Let us know through our website (www.defensivetraining.us) or Facebook page(Golden Eagle Training & Safety)

Butch & I are ready to launch revised and new training courses. For the Law Enforcement / Corrections setting, we have a Threat Pattern Recognition Course which is full of great information and research. We also offer Basic and Instructor certification classes in Law Enforcement / Corrections for Defensive Tactics, Pressure Point Control Tactics (PPCT), Weapon Retention and Disarming (WRD), Impact Weapon (IW), Straight Baton, Side-Handle Baton (SHB), Spontaneous Knife Defense (SKD), and Ground Avoidance Ground Escape (GAGE). We also have basic and instructor certification in Sexual Harassment and Rape Prevention (SHARP) and for School Resource Officers, Disruptive Student Management (DSM).

In the civilian environment, we offer SHARP to Self-Defense or Empty Hand Control Instructors or to companies and agencies. We also offer the DSM to school officials or school administrators along with a course entitled School Safety & Healthy Children which includes material concerning bullying in schools. The course is spun off research and material from a Michael Dorn, a world-wide known individual in School Bullying programs. The information and material offered in this class is very valuable to school Administrators and officials.

For churches, institutions, and other agencies, we offer classes in Personal Safety, Staying Safe while Traveling, Basic Firearms Safety, Women's Firearms Course, Home Safety, Self-Defense, and Don't Become a Victim.

Feel free to pass on the above information to those interested. Have them contact us through our website or Facebook for further information or questions. Butch & I have been teaching others to protect themselves for the twenty-one years, mostly police and correctional officers but civilians too. We just would like to pass on what we have learned and know to others in that it may help them in protecting themselves or family members from harm.

Our next Basic Carrying Concealed Handgun class is set for Saturday, May 24th in Homer, LA at DWCC. If you know of anyone interested, have them contact us through the website or by calling 318-927-5026. Registration forms are available. Let us know if you are interested in our Advanced CCW class. Stay safe and remember to carry concealed.
