

OCTOBER 24th, 2015 Class

Little obvious who was taking the Basic CCH Class and who was in the Advanced CCW Class. The folks with the rain jacket on were in the rain all day in the Advanced Class. And our hats go off with those that did.

GOOD TURNOUT FOR OCT. 24th, 2015 CLASS

The weather was not fitting to be on the range all day but those six dedicated and well-disciplined men, three from Minden and three from Claiborne parish, braved the off and on rain showers and stuck it out all day in the Advanced CCW calls Oct. 24th. Three reputable ladies received a little “one on one” training and went through the Basic CCH class the same day. The good Lord knew when they hit the range as the rain shut off for them. We enjoyed those in both classes as we hope they did too. We do not want to forget to thank David & Barbara Hood for providing the fine hamburger and hot dog lunch with all the sides for this class. Everyone had plenty to eat. Thanks again to David & Barbara. Our next Basic CCH and Advanced Class is set for Dec. 5th, the first Saturday in December. This will be Golden Eagle Training & Safety, LLC’s last class for year 2015 and starting next year our class

tuition goes up to \$77. A fifth teen dollar increase but still the cheapest in this region and the best training for that cost. Pass the word around and tell the ones you may know that may be interested to get registered for the Dec. 5th class.

CARRYING CONCEALED CONCERNS

Since our September newsletter, a lot has happened in our country and across the world. The college mass shooting in Roseburg, OE that killed 10 and injured many more happened on Oct. 1st. A subject with a knife 8-10 inches long seriously injured four on a college campus in Santa Clara, CA. He would of injured more or possibly killed someone but he was shot by Campus Police. In Chicago, IL, a state with the strictest gun laws, a person carrying concealed shot and killed someone trying to hold up a store. And on Nov. 14th, over a hundred and twenty were killed and over a hundred were injured as France experienced their worst terror attack in history. Now what we are about to say does not in any way say that we are backing this person or support his parade for President of the United States but on Nov. 16th, this 2016 Presidential candidate stated in a speech, "Nobody had guns but the bad guys. The victims should of had guns." Let's go back a little further in time, July 20th, 2012, Aurora, CA, 12 are killed and numerous injured by an armed idiot as they sat inside a movie theater. June 17th of this year, nine are killed while attending church in Charleston, SC. Thirty seven days later, two are killed by an armed nut in a Lafayette, LA movie theater. His life was taken not by anyone else, but by himself. Now let's take what that candidate for 2016 Presidential race said, "Nobody had guns but the bad guys. Victims should have had guns." What if, what if someone did have a gun in these just mentioned incidents? Just like the citizen in Chicago, IL had a carrying concealed permit and shot the robber. What if someone or even better what if more than one had a concealed handgun in Aurora, CO? Or Charleston, SC? Or Lafayette, LA? Does anyone remember in their school days when they played a game called Dodge Ball? You line up a few against wall and then line up more behind a line with those soft rubber balls and they threw them as hard they could to hit you, but you couldn't throw back? What kind of game would that of been and yes we even played this, when you had rubber balls to throw back at them? Was an entirely different game when you threw balls back at them. The outcome would have been different in all of these deadly incidents if someone was throwing lead back at them. You can't convince us that if one person had a concealed handgun and elected to use it in any one of these incidents the number that died would be the same as it was. No, no way can you prove it to us that 12 would of still died in Auroa, CO. Or nine in Charleston, SC. Or even two in Lafayette, LA. Certainly not ten in Roseburg, OE on that college campus. What happened in France may be happening here in the good 'ole USA and carrying concealed can have an effect on the outcome.

ACTIVE DUTY MILITARY

As other CCH agencies are now doing, we have also started allowing anyone who is currently active duty military free tuition to our Basic CCH Classes. Although any one in that status may not need the class, if they have fulfilled the training requirement while with the military, those that do not and are wanting to attend the class to apply for a LA CC permit, they will be our guest and can attend the class without paying registration fee. We are not only grateful for our country's Veterans sacrifice and service but also for our country's active military personnel. We asked all of you never pass up an opportunity to thank a Vet or our active military individuals but also thank those that are your local public safety and law enforcement personnel for their sacrifice.

Enjoy the rest of November, Have a safe and happy Thanksgiving and remember to always carry concealed legally and most of all; Stay Safe!
